

***New in the fleet!***

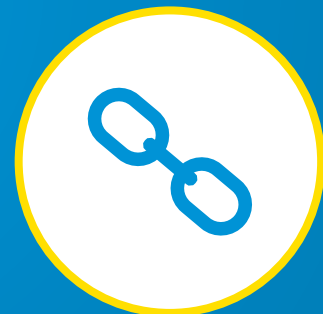

**ROOF EDGE PROTECTION**

Easy and fast  
(dis)assemble

Can be used up to  
wind force 5

Robust & durable  
construction

**ROOF EDGE PROTECTION**

*Scaffolding material*

This aluminum roof edge protection is quick to assemble, easy to use and makes a safe working environment of a flat roof. The roof edge protection can be extended per 3 metres.

The aluminum roof edge foot is made of a 3 mm thick profile: the perfect combination of weight and solidity.

**RENTAL NUMBER**

**924003**

Easy and fast (dis)assemble

Can be used up to wind force 5

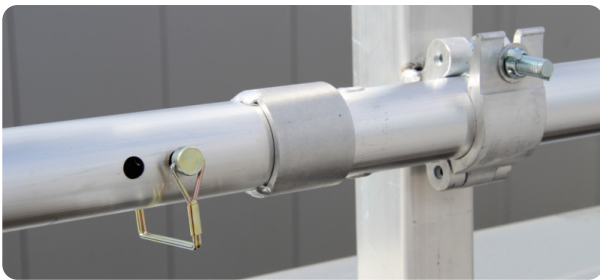

Robust & durable construction
