New in the fleet!

HS701E, HS1103, HS1203, HS1203E, TX3005 Mini Tracked dumpers

Collé has a wide range of mini dumpers on crawlers. These compact machines are ideal for construction work, renovations, landscaping, work on uneven, muddy, sandy or steep surfaces where wheels are inadequate because they sink and/or lose grip.

These compact tracked dumpers are very manoeuvrable and robust with a loading capacity of 700 kg to 2,900 kg. The dumpers are available in different shapes, for example with a front tipping body, slewing ring and/or a self-loading function.
